

Dear Colleague.

I hope you and your family are well. I am delighted to inform you that on the occasion of the World Athletics Championships in Budapest, The World Athletics Coaches' Club is once again being organised by the Global Athletics Coaching Academy.

Each day, between the morning and evening sessions of the competition schedule there will be analysis of events and interviews with top coaches. On the mornings of 21st & 22nd August there is a Coaches Symposium featuring International Experts presenting on critical topics such as Safeguarding, Recovery Programmes and Injury Prevention.

The club is free and open to all coaches whether with your Team or supporting the Team. The programme is both on site at the Hungarian Magyar Tesnevelési University and on-line.

It is a really valuable opportunity for your coaches to network with other coaches and Performance Experts from across the World Athletics Community and from other sports. It is also a valuable opportunity for them to advance their personal development and be accredited for their participation through the Coaches' Club Certificate.

I hope you see this as a value add to your own Coach Development Programme. Further information will follow and regular updates will appear on Social Media.

Please can you forward the attached flyer to all the coaches in you Member Federation?

I look forward to meeting your coaches in Budapest.

Keep smiling.

Frank Dick.

Chair of the Global Athletics Coaching Academy.
